Partner of

Cancer. I can help!

Cancer has not been defeated yet. More than 73,000 people are annually diagnosed with cancer, and this figure will increase in the years to come. Every human being deserves a better quality of life and a bigger chance of recovery. Therefore, scientific cancer research is imperative.

The Maastricht Universitair Medisch Centrum (Maastricht UMC+) and Health Foundation Limburg (HFL) have joined forces with the Dutch Cancer Society (KWF). For this purpose, the HFL Cancer Research Fund has been set up. The aim of this collaboration is to raise more funds and to regionally involve more people in the fight against cancer. Through the Fund, Maastricht UMC+, HFL and KWF raise extra funds for further cancer research in het Maastricht UMC+ and the region.

Your help is vital! Support the fund by posting the completed reply card.

Thank you very much!
